PROFILE

I am a dedicated and detail-oriented front-end developer eager to contribute my extensive coding skills and adaptability to a dynamic work environment. With a wealth of knowledge and experience, I am seeking a position within your company to further enhance my expertise and contribute to its success.

Experience

I contributed to the development of two systems: Ugcakes POS, a point-of-sale system for a bakery, and Robozen, a salon booking platform. I enhanced Ugcakes POS with features like inventory management, improving efficiency. For Robozen, I designed a user-friendly interface that streamlined bookings and boosted user satisfaction.

Key Contributions:

Robozen (Salon Appointment Booking System):

- Developed and implemented a responsive and user-friendly interface.
- Simplified the booking process, allowing easy appointment scheduling and stylist selection.
- Integrated customer data management and service scheduling in one platform.

Ugcakes POS (Point-of-Sale System):

- Designed and developed a complete POS system tailored for Ugcakes bakery.
- Focused on usability, making the system intuitive for quick and efficient transaction processing.
- Enhanced functionality with features like inventory management, order tracking, and customer management.

What I Bring to the Table:

- React Proficiency:** Strong foundation in building responsive web applications using React.
- Problem-Solving Skills:** Ability to troubleshoot and resolve issues in code effectively.
- Quick Learner:** Eager to learn new technologies and adapt quickly to changing environments.
- Clean Code Focus:** Committed to writing clean, efficient, and maintainable code.
- Team Collaboration:** Strong communication skills and a collaborative mindset.

Open to Opportunities:

Looking for junior to mid-level roles or collaborative projects where I can grow my skills and contribute to meaningful work. Open to connecting for advice, opportunities, or collaborations!
