

Awiral Chand

React/Next.js Developer

✉ awiral1234@gmail.com ☎ +61 422559107 🔗 awiralchand.com.np/ 🔗 LinkedIn/awiral-chand

OVERVIEW

Frontend Developer with hands-on experience in React, Next.js, and TypeScript, specializing in building scalable, responsive, and user-focused web applications. Strong background in modern UI development, API integration, real-time features, and performance optimization. Adept at collaborating in agile teams, solving complex frontend problems, and delivering high-quality solutions that enhance user experience and engagement.

EDUCATION

Master of Networking, major in Cybersecurity,
Melbourne institute of technology [🔗](#)
11/2025 – Present

Bachelor of Science in Computer Science and Information Technology,
Texas International College
2019 – 2024 | Kathmandu, Nepal

PROJECTS

PROFESSIONAL EXPERIENCE

Frontend Developer, MaxiMax [🔗](#)

12/2024 – 10/2025 | Lalitput, Nepal

- Implemented Shadow DOM traversal techniques for third-party widget integration, enabling seamless 3CX live chat functionality with custom styling
- Architected responsive UI components using Next.js, TypeScript, and tRPC, leveraging ShadCN UI for a scalable and consistent design system
- Designed and developed tRPC APIs for end-to-end type-safe communication, including routing, middleware, and procedure handling between frontend and backend services
- Integrated tRPC within Next.js applications to enable efficient, strongly-typed API calls, improving performance and reducing runtime errors
- Developed a custom email template editor with auto-save functionality and persistent design state management
- Built responsive chat interfaces using media queries and dynamic styling to ensure cross-device compatibility
- Implemented Mutation Observer patterns for handling dynamic DOM updates and maintaining consistent UI rendering
- Created interactive data visualization dashboards using Recharts with filterable and real-time data displays

Jr Frontend Developer, RayZen Tech [🔗](#)

04/2023 – 12/2024 | Kathmandu, Nepal

- UG Cakes Web Migration (React 16 to React 18)
- UG Cakes POS (Point-of-Sale System)
- Integrated QR payment functionality using WebSockets.

SKILLS

React

Next JS

Inertia.js

TypeScript

3CX Live Chat Integration

Shaden UI

TRPC

QR Payment Integration

WebSockets

Redux

Tailwind CSS

React Router

Git & GitHub

JavaScript

UI Frameworks

Material-UI, Ant Design, ShadCN

- Integrated React 18 features such as concurrent rendering and automatic batching
- Refactored legacy codebase from class-based components to functional components
- Integrated Moru Pay SDK for secure and flexible online payment processing
- Updated dependencies and optimized the build process, ensuring all libraries were compatible with React 18
- Upgraded and restructured project dependencies, resolving compatibility issues with libraries such as React Router and state management tools
- Implemented RESTful API integration for real-time syncing of inventory and orders
- Centralized state management with Context API, streamlining data handling processes and enabling rapid feature development.

Frontend Intern, Urban girl [🔗](#)

01/2023 – 03/2023 | Kathmandu, Nepal

- Built using React and Tailwind CSS, delivering a dynamic, responsive design that is both maintainable and consistent across devices.
- Managed state with Context API, data handling and real-time updates across the application
